## 7.1.2. THE INSTITUTION HAS FACILITIES AND INITIATIVE

### 1. USE OF LED BULBS, TUBES AND GENERATOR

If we want to stop climate change we need to switch to renewable and sustainable sources of energy as soon as possible. Use of less electricity appliances is one step towards conservation of energy and money. Yashwantrao Chavan Mahavidyalaya, Karmala use less electricity consuming appliances and generator for back up electric supply and takes care the switches are turned off when not in use.

### 3. WATER CONSERVATION

Construction of Water Bands was undertaken by the institute to increase the ground water level of Shivaji nagar and Vidya nagar areas in karmala. Majority of the area dependent on under water resource using tube well and these rain water harvesting bands were constructed near the college ground. Rain water harvesting is collection and storage of rain water that runs off open grounds, etc. This water run off can be either stored or recharged into the ground water.

### 5. DISABLED- FRIENDLY, BARRIER FREE COLLEGE ENVIRONMENT

Beautification of the college campus improves the attitude of the society and students towards the college. This has direct impact on the admission rate. The college sets an example for other institutions. We proudly say that last five year there has been no Divyang student in our college.
